

Remarks:

This amendment is submitted in an earnest effort to advance this case to issue without delay. The examiner has indicated that the case contains allowable subject matter.

The priority papers were filed with the original application papers and their receipt was acknowledged in the above-mentioned Examiner's Action. The undersigned hereby reiterates the priority claim made in the earlier-filed Declaration.

The specification has been amended to eliminate some minor obvious errors. No new matter whatsoever has been added.

The objection to the drawing is overcome by stating in the Specification that the balancer line 4 and air line 29 are shown schematically by the dashed lines shown in FIG. 1.

The claims have been amended to correct the minor language inconsistencies pointed out by the examiner.

As there is no rejection on art and all the nonart rejections have been addressed and overcome, the case is in condition for allowance. Passage to Issue is therefore in order.
